ABOUT ME

Accountant turned programmer.

Technology is the future and I realized I had to quickly adapt to our world. I have become determined to learn software development and this career change has helped me innovate my previous professional experience to another field.

- Versatile
- Problem-solving
- Team work
- Creativity
- Communicative
- Time management
- Proactivity
- Self-development skills

I would love the opportunity to eager to expand my tech knowledge and to demonstrate my capabilities and be able to add my attitude component.
Now is time to code. Let's push it! 🚀
